## **AIS participates in the 7th GRIHA Summit, 2016**

Asahi India Glass Ltd.

Asahi India Glass Limited (AIS), India's leading integrated glass company, participates in the 7th GRIHA Summit from 16th to 20th February, 2016 in New Delhi. Featuring four (16th - 19th February) exciting days of eminent speakers, unmatched networking opportunities, exhibition of green building products (on 18th-19th February), GRIHA

workshops (for about 40 professionals from 16th- 17th February and for students on 17th February, i.e. GRIHA Trophy at NASA) and tour of green buildings (on 20th February), The GRIHA Summit offers a place for hundreds to meet and renew their commitment to the green movement.

"As India's leading integrated glass company, AIS has been at the forefront of moving towards an ecofriendly future. It has pioneered innovations in glass processing technology to develop both single-glazed and double-glazed products with the best 'green' parameters. This is giving developers and their architects greater choice and the ability to explore possibilities. These solutions enhance the aesthetics, efficiency and economics of commercial and residential spaces, compared to traditional building materials," said Vikram Khanna, COO- Architectural Institutional Business & Consumer Glass, CMO, CIO, Asahi India Glass Limited.

AIS is also participating in 'Sustainable Façade Conference' which is being organized by TERI, Bangalore along with GRIHA Council as one of the knowledge events. The Façade Conference aims to provide a platform to discuss and present building facade designs & their performance in various climatic zones in India to achieve Sustainable Built Environment.

AIS will be participating in the panel discussion on the topic Mainstreaming Energy Efficient Façades- Challenges & Solutions. The panel discussion will address challenges in mainstreaming efficient facades, including maintenance, affordability, large scale replication, retrofit of façade in existing building stock.

The panel will include eminent personalities who have installed efficient facades and show way forward for various challenges related to efficiency in façade design in India.

#### **About Asahi India Glass Limited (AIS):**

Asahi India Glass Ltd. (AIS) is India's leading integrated glass solutions company and a dominant player both in the car and building glass segment. It commands over 70% share in the Indian passenger car glass market. Established in 1986, AIS' footprint today spans the entire spectrum of the automotive and architectural glass value chains. It is a sand-to-solutions organization with products & services for institutional buyers as well as retail customers.

#### **About Ecosense by AIS:**

Ecosense from AIS is a high performance glass portfolio, available in a unique range of 33 natureinspired shades under the four categories – Enhance (Solar Control range), Exceed (Solar Control Low-E range), and Essence (Low-E range) and Edge (Solar Control & Thermal Insulation. Can be used in single glazed applications). It helps developers and their architects by:

- Allowing optimum light to pass through a window or façade while radiating, absorbing and reflecting away a large part of near range infra-red heat
- Keeping indoor spaces brighter and cooler
