

Asahi India Glass Ltd.

## Landmarks in glass

The AIS project showcase

## Enabling a future that sees more

AIS is India's leading integrated glass company and it has pioneered the development of innovative glass solutions for living and commercial spaces. Equipped with a comprehensive range of products and solutions that provide the right blend of functionality and aesthetics, comfort and convenience, AIS is committed to a future that will see more.

This is a showcase of AIS' perennial expertise in providing solutions in glass of the highest quality, a glimpse into the possibilities that have been realised so far, and an allusion to ideas in glass that await their tryst with the future.

## Ecosense – the green standard in glass

Achieve the right blend of daylight and energy saving, visual comfort and thermal control, and technology and eco-sensitivity, through the AIS Ecosense range of products. Bring new ideas to life and enable a truly sustainable future with these solar control, low-E, high-performance glass products.

## AIS Opal: More light, more comfort, more style

When it comes to hard-coat, heat-reflective glass, AIS Opal is the ideal choice for you. Manufactured using cutting-edge technology, its solar control properties reflect the sun's heat away from the building, while allowing the natural light to brighten up the interiors. AIS Opal Trendz, a variant of AIS Opal, comes in exciting patterns and vibrant shades.

### Shades:

Royal Blue, Aqua Blue, Cool Green, Olive Green, Pearl Grey, and Golden Bronze
