THE AIS ALUMINIUM TOUCH!

AIS Windows, from AIS – India's leading glass manufacturer, offers a premium range of frames in aluminium. Featuring exceptional quality and a comprehensive range, AIS Windows has options to suit a host of door and window preferences. We offer end-to-end solutions right from recommendations on our high-performance glass and variety of stylish frames, to easy and hassle-free installation, and more.

Choose the Aluminium advantage

Aluminium is a light yet strong material that can be easily bent into any shape and is available in a variety of shades

It is maintenance-free

Aluminum is the most preferred fenestration material for residential and commercial spaces

It is weather-resistant

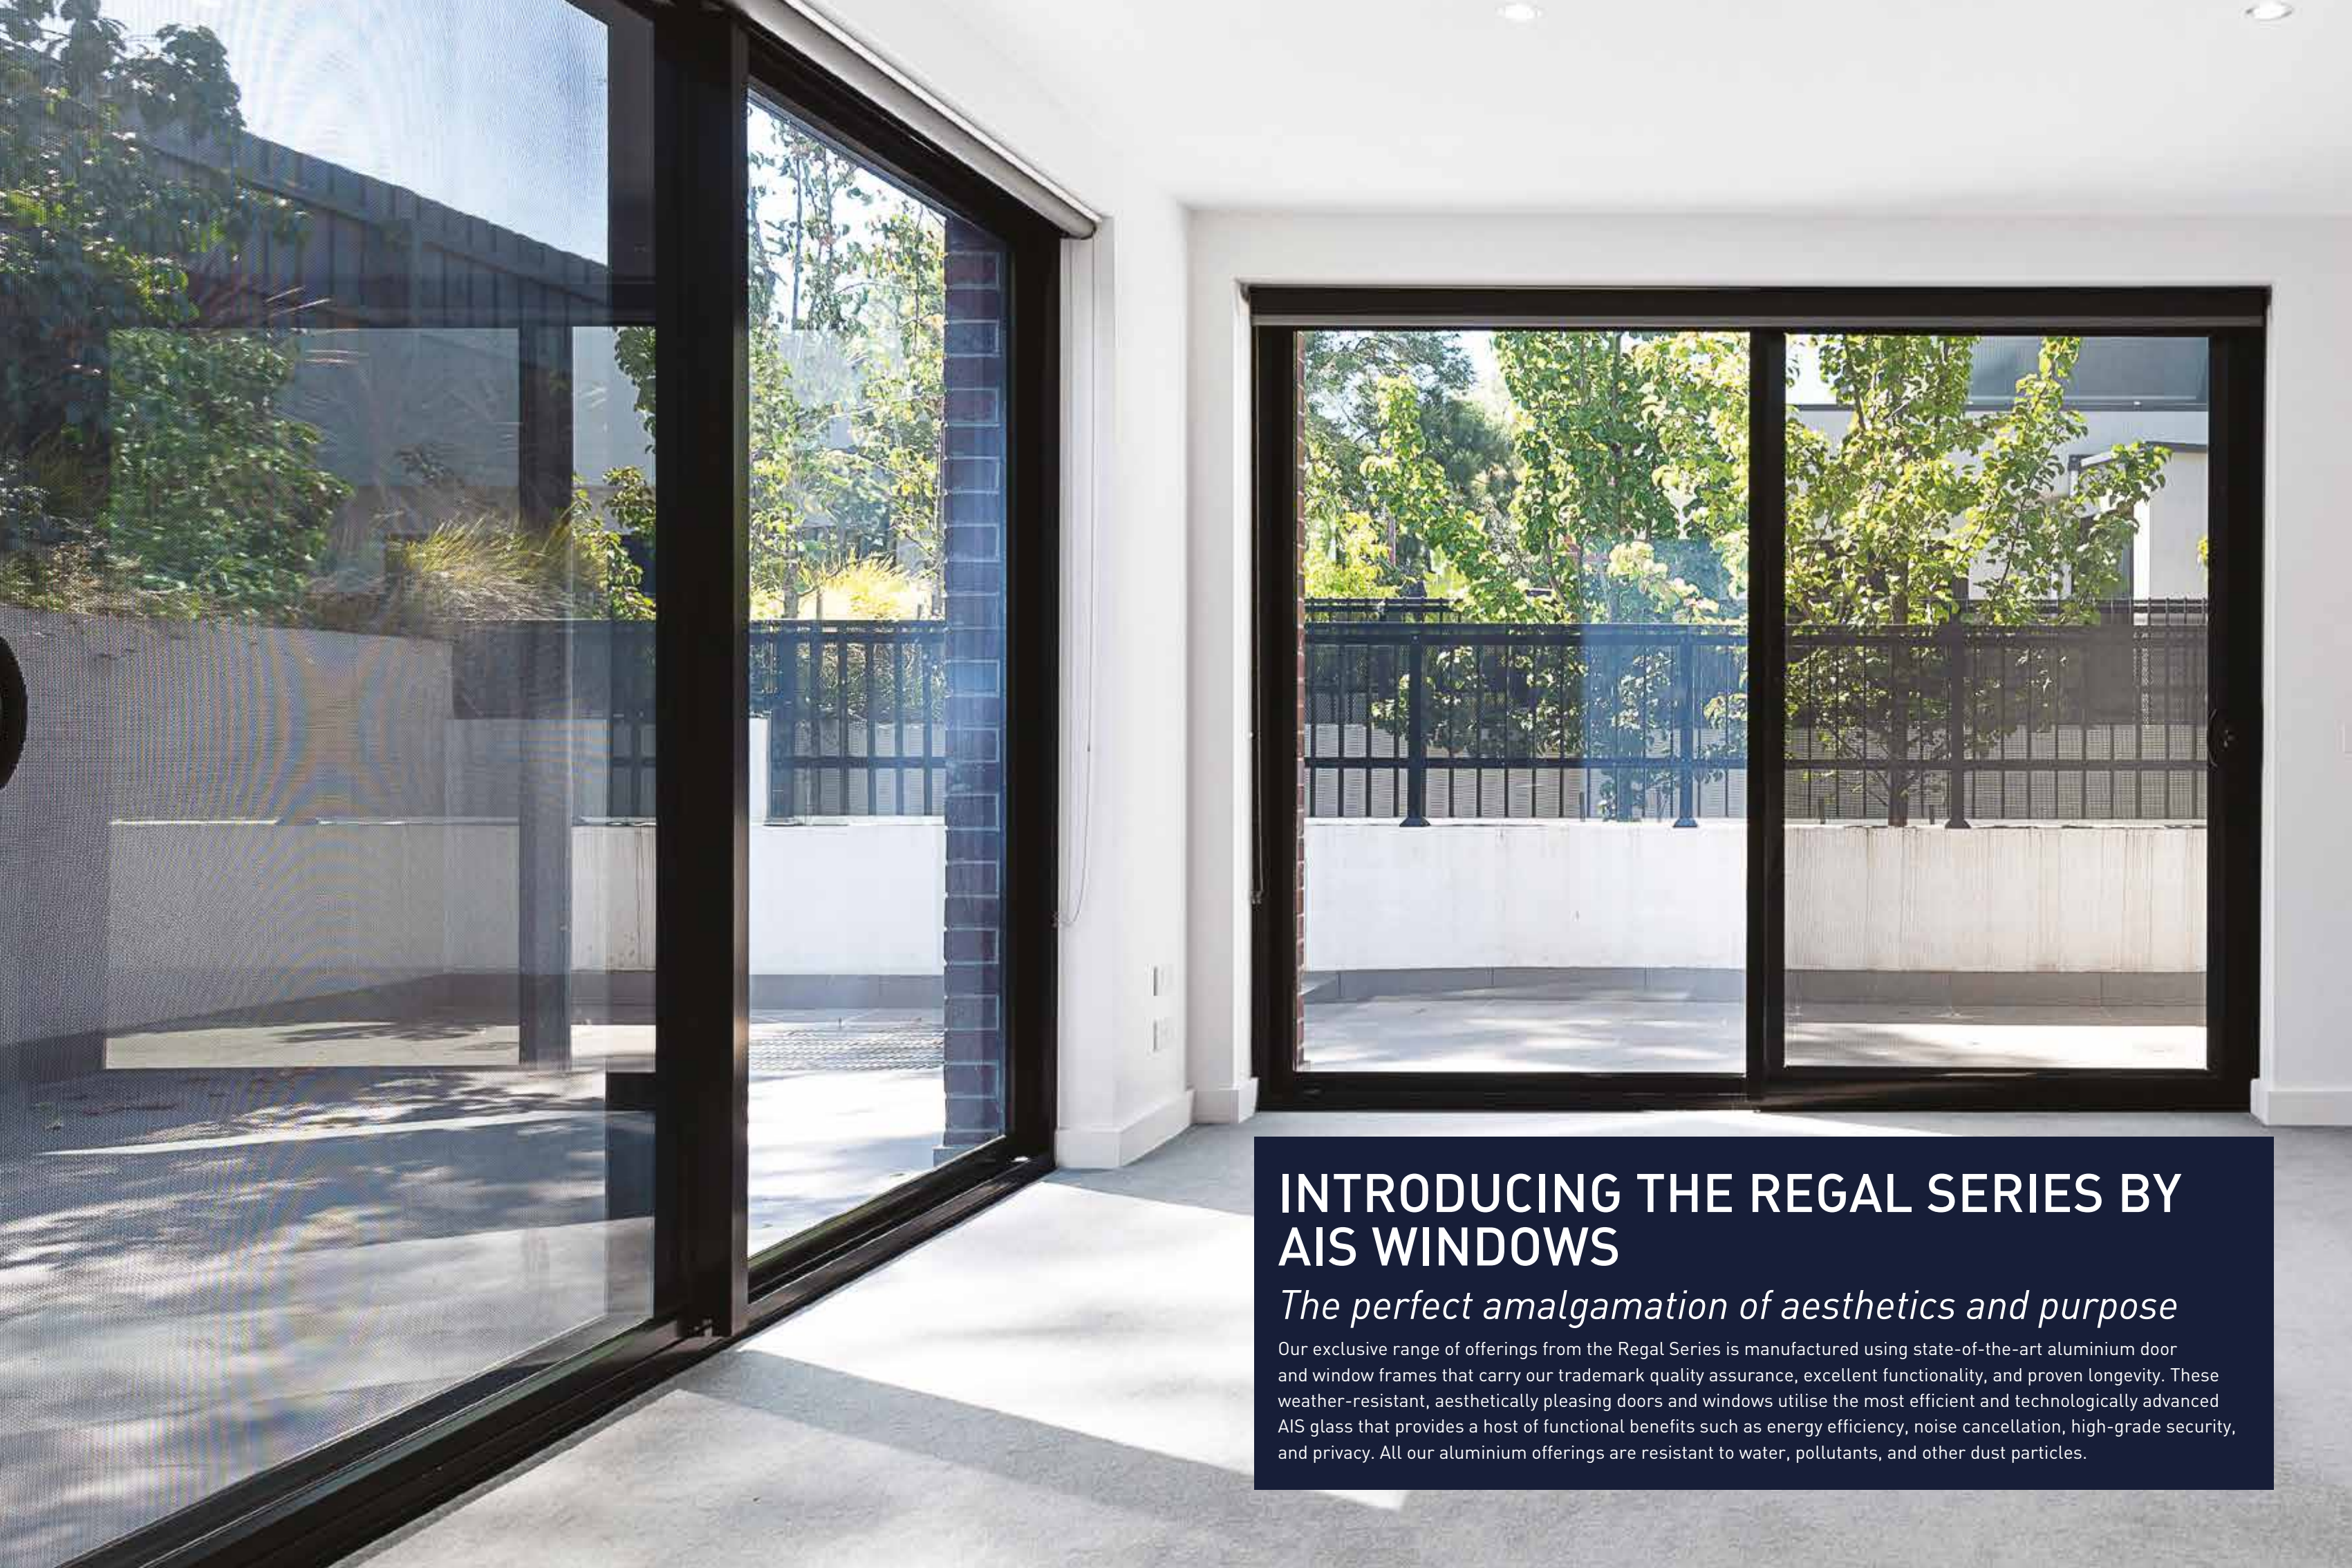

It has modern aesthetics

It is durable, with no rotting or corrosion and provides absolute resistance against termites

INTRODUCING THE REGAL SERIES BY AIS WINDOWS

The perfect amalgamation of aesthetics and purpose

Our exclusive range of offerings from the Regal Series is manufactured using state-of-the-art aluminium door and window frames that carry our trademark quality assurance, excellent functionality, and proven longevity. These weather-resistant, aesthetically pleasing doors and windows utilise the most efficient and technologically advanced AIS glass that provides a host of functional benefits such as energy efficiency, noise cancellation, high-grade security, and privacy. All our aluminium offerings are resistant to water, pollutants, and other dust particles.

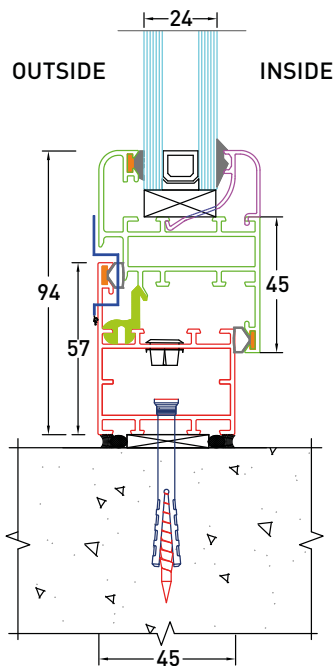

AIS REGAL SERIES – Casement Windows

Get the bigger picture with AIS Regal Casement Window Series

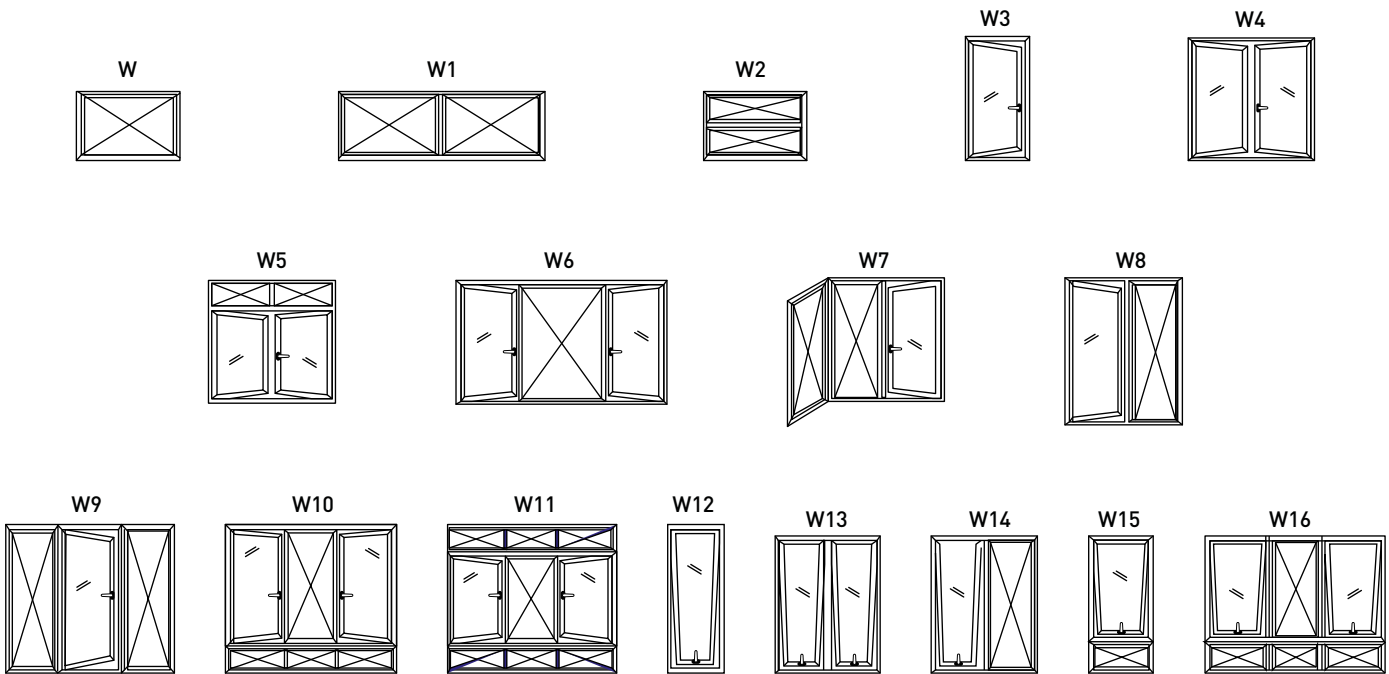

Add character to your space and provide continuity between rooms, interiors, and exteriors with AIS Regal Casement Windows. Our aluminium casement windows increase the design aesthetic and are the most secure form of windows. Casement windows can be designed to open either inward or outward, creating an unobstructed view in the centre.

Features

- Multiple options of aesthetically superior glazing bead.
- Wide range of glazing possibilities from 5 to 28 mm.
- Smooth & effortless operation.
- Top-end insulation through engineered gaskets and insulating layers.
- Co-extruded gaskets which can withstand temperature levels ranging from -20°C to 50°C.
- Wide range of hardware options to choose from.
- Provision for further reinforcement for enhancing strength to withstand cyclonic wind-loads.
- Offset handle option for ease of operation.

Design Possibilities

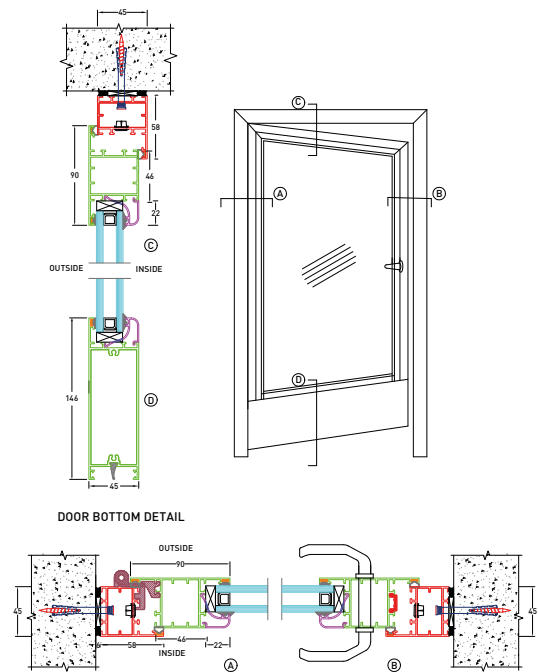

AIS REGAL SERIES – Casement Doors

Secure your future with the AIS Regal Casement Door Series

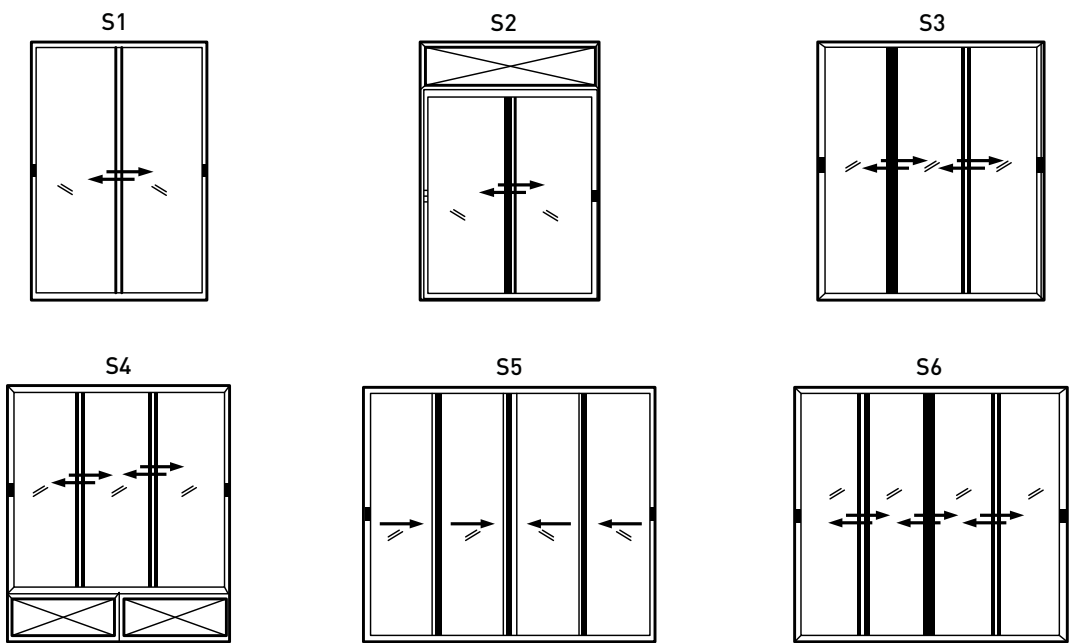

AIS Regal Casement Doors have a single sash which is hinged from the side but can be designed to open either inward or outward, based on your requirement. Our aluminium casement doors are suitable for balcony access, decks, and patios. They are very economical and popular and are available in a variety of designs and colours.

Features

- Multiple options of aesthetically superior glazing bead.
- Wide range of glazing possibilities from 5 to 28 mm.
- Smooth & effortless operation.
- Top-end insulation through engineered gaskets and insulating layers.
- Co-extruded gaskets which can withstand temperature levels ranging from -20°C to 50°C.
- Wide range of manual to mortise hardware / lock options to choose from.
- Provision of further reinforcement for enhancing strength to withstand cyclonic wind-loads.
- Offset handle option for ease of operation.

Design Possibilities

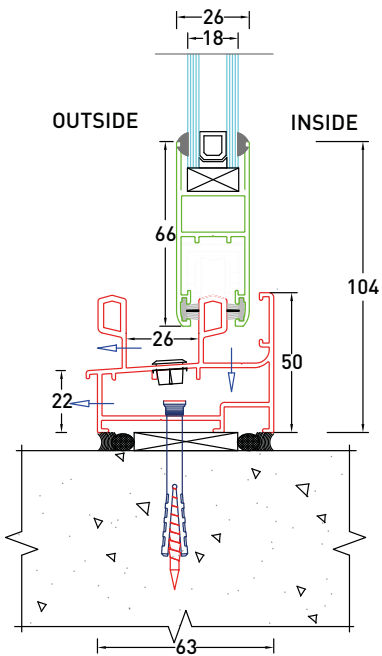

AIS REGAL SERIES – Slider Windows

Simplify your life with AIS Regal Slider Window Series

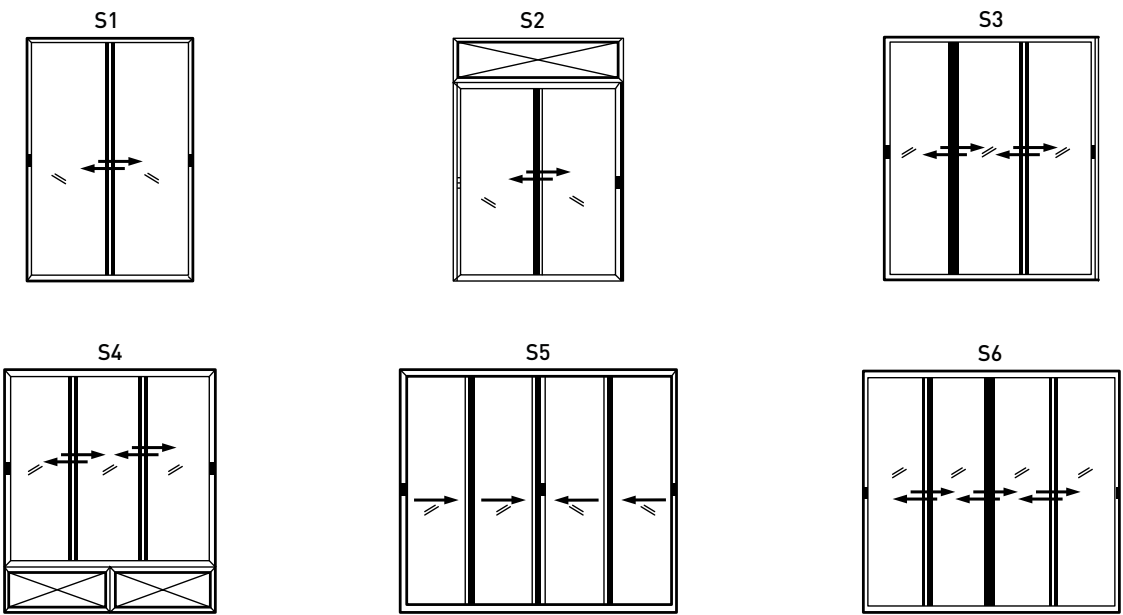

The AIS Regal Slider Window is a combination of two sashes or frames. The two sashes have a sliding motion back and forth that allows the window to open or close. One of the advantages of our aluminium sliding windows is the ventilation. With high-grade aluminium frames, the sliding windows can have various profiles depending on AIS Glass of choice.

Features

- Wide range of glazing possibilities from 5 to 18 mm.
- Smooth operation through varied compatibility of engineered rollers.
- Wide range of hardware options to choose from.
- Provision of further reinforcement for enhancing strength to withstand cyclonic wind-loads.
- Seamless combination possibilities with fixed windows.
- Customised provision of integrated insect screen.

Design Possibilities

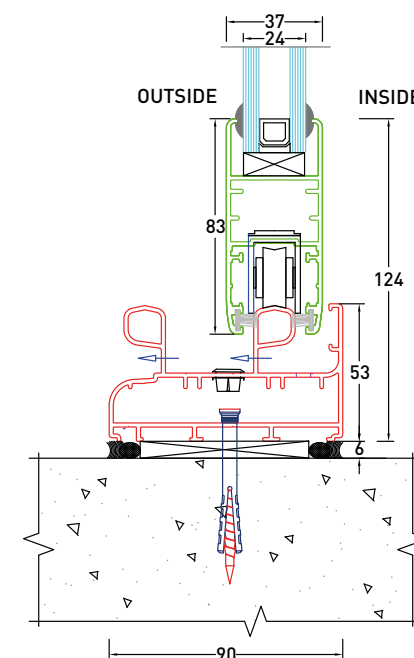

AIS REGAL SERIES – Slider Doors

Add a royal touch with AIS Regal Slider Door Series

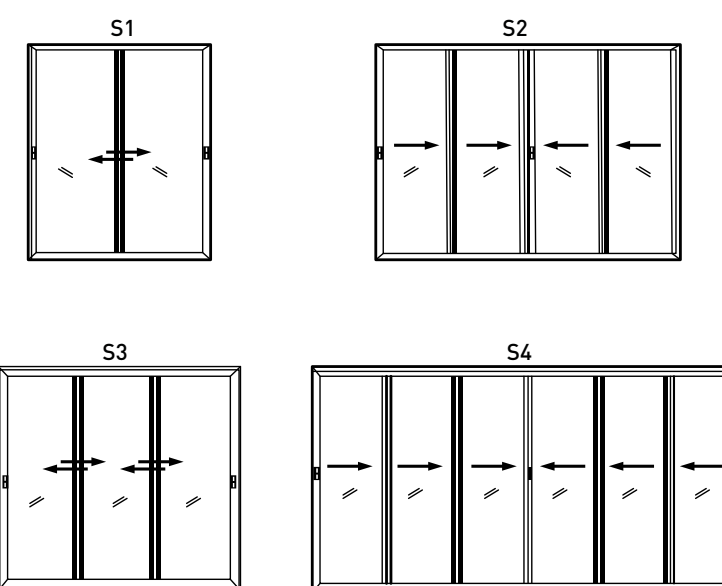

AIS Regal Slider Doors are preferred over the conventional doors as they are compact and occupy less space. The aluminium frames provide an elegant and glossy look which enhances the aesthetics. These doors are highly durable, lightweight, corrosion-resistant, and more secure than other doors.

Features

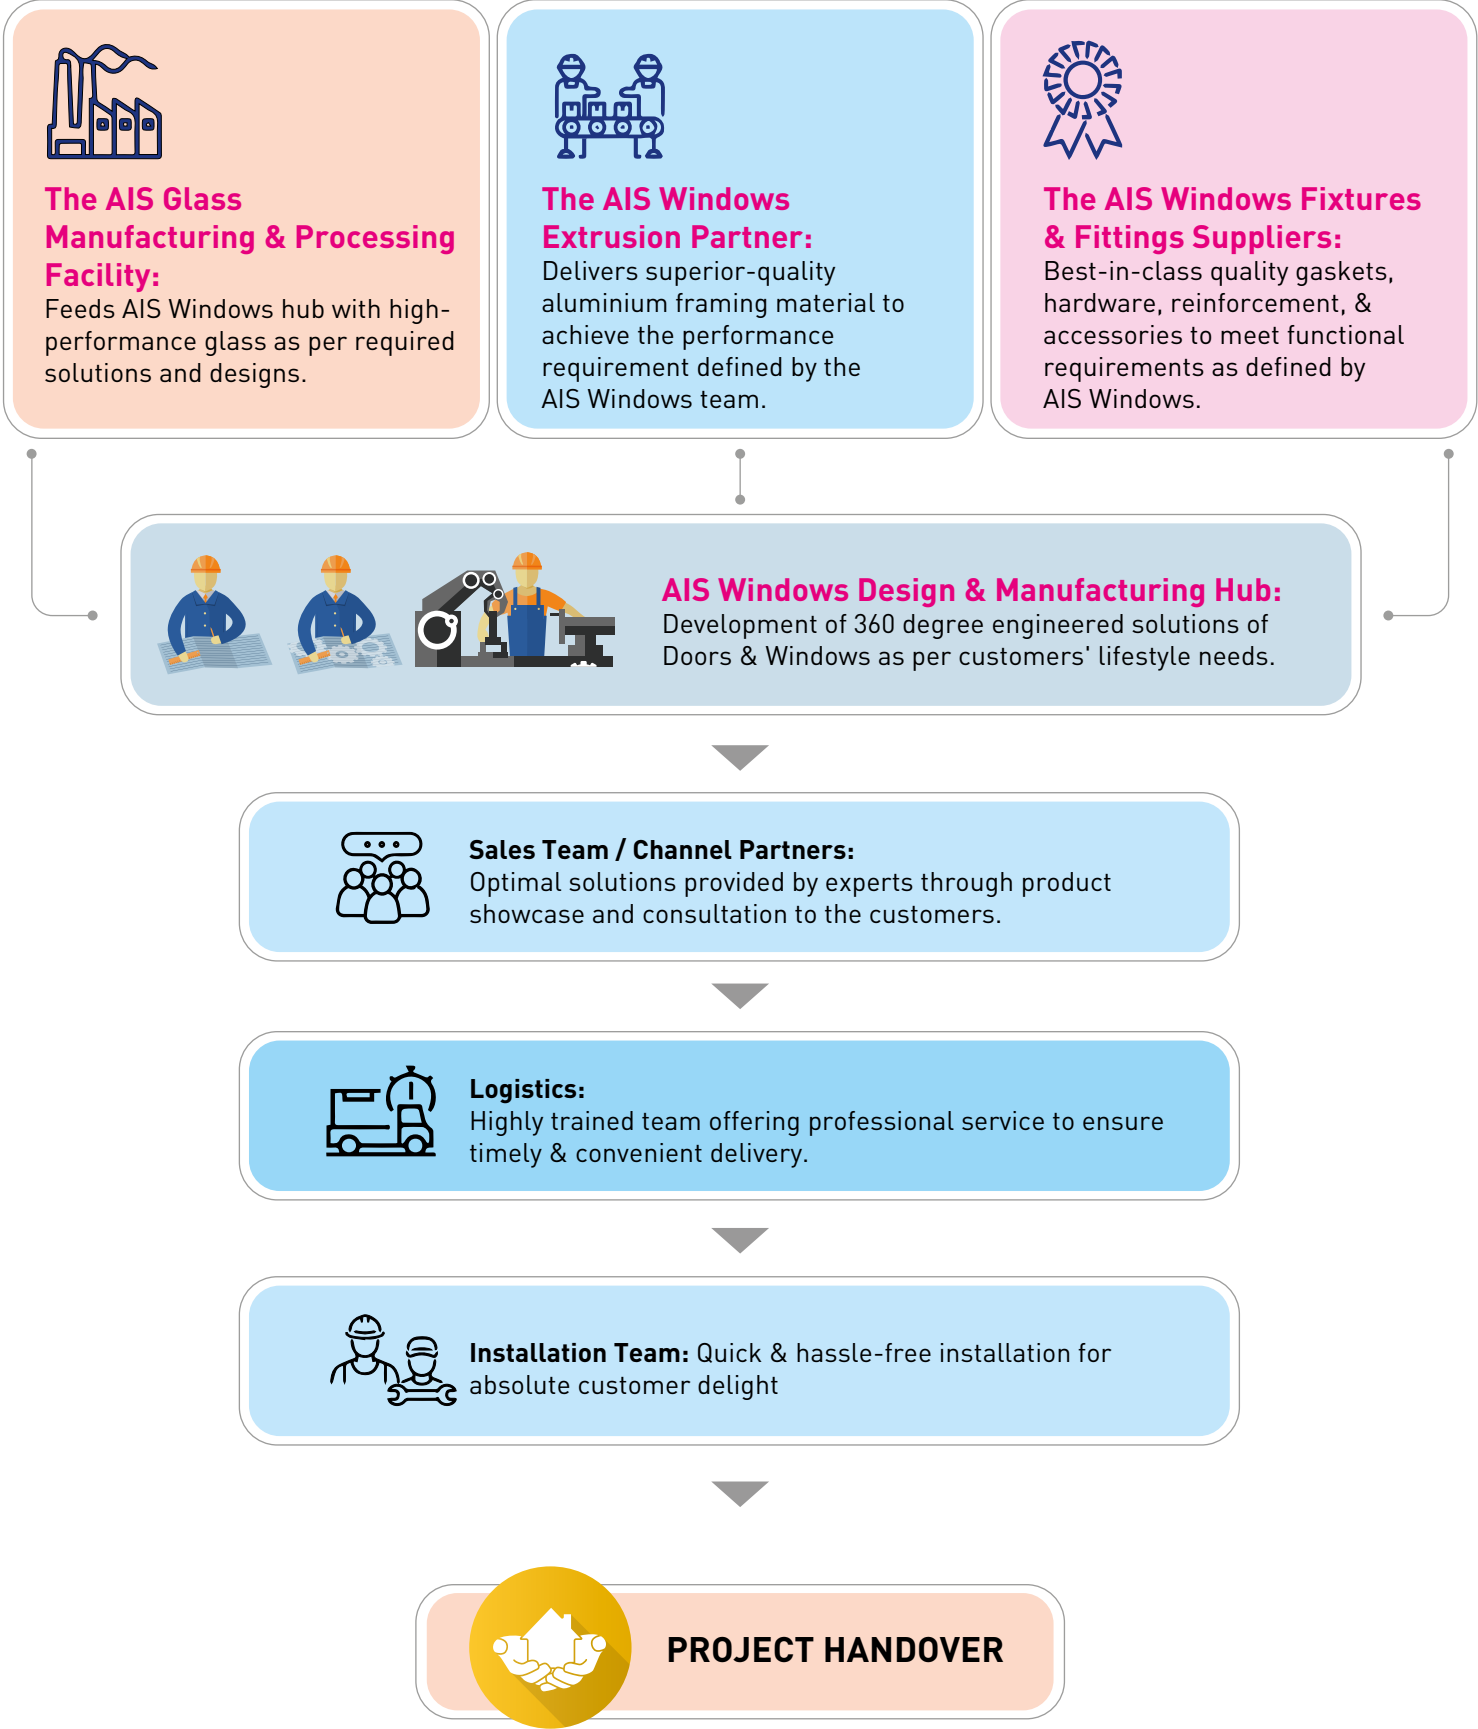

- A wide range of glazing possibilities from 5 to 24 mm.
- Smooth operation through varied compatibility of heavy duty engineered rollers.
- Top-end insulation through engineered gaskets and insulating layers.
- Innovative silent fin for dust insulation
- Wide range of hardware options to choose from in both manual and automatic categories.
- Provision of further reinforcement for enhancing strength to withstand cyclonic wind-loads.
- Offset handle option for ease of operation.
- Customised provision of integrated insect screen.
- Sunken frame construction for hassle-free passage.
