### **Mumbai 11th December 2019: AIS held 'AIS Masterclass' sessions across colleges in Mumbai**

Asahi India Glass Limited (AIS), India's leading automotive and building glass company, offering end-to-end solutions across the automotive and architectural glass value chain has always believed in reshaping the architectural landscape of our times.

AIS has recently launched the first edition of 'AIS Glass Design Olympiad' (GDO), which is aimed at students from architectural institutions in Mumbai and Ahmedabad. AIS Glass Design Olympiad is a great opportunity for aspiring architects and designers to showcase their talents on a large industry platform.

Under the banner of GDO, AIS has launched 'AIS Masterclass' – which are knowledge sessions delivered by industry experts. AIS Masterclass sessions were held in various colleges across Mumbai, as mentioned below -

1. Viva College of Architecture, Virar
2. Bharati Vidyapeeth College of Architecture, Navi Mumbai
3. Baliram Hiray College of Architecture, Bandra
4. D Y Patil College of Architecture, Navi Mumbai

Almost 700 students attended these sessions. These technical sessions were delivered by Ar.Vivek Bhole (Neo Modern Architects), AIS GDO Curator, and one of the leading architects in Mumbai, Ar.Hiten Sethi (Hiten Sethi Architects), another leading architect from Mumbai and Ms.Garima Kamra, Technical Manager from AIS..

Ar. S.V.Chaudhari, Principal DY Patil College of Architecture where AIS Masterclass session was held, said *"AIS Masterclass being held under AIS Glass Design Olympiad competition for the students of our college was indeed very insightful. I am sure the sessions delivered by Ar.Vivek Bhole and Technical expert from AIS, Ms.Garima Kamra has helped the students to start thinking differently towards Parametric Designs and how glass can be used innovatively in architecture."*

#### **ABOUT AIS**

Established in 1984, Asahi India Glass Limited (AIS) is India's leading automotive and building glass company, offering end-to-end solutions across the automotive and architectural glass value chains.

A clear market leader in automotive glass, AIS today has 12 plants (including sub-assembly units), 8 offices, with a family of over 4,000 employees, spread across the country in strategic locations, supporting a discerning global and local customer base.
