

Beat the heat with AIS' new shade of Green

Delhi, 13th July, 2015: Asahi India Glass Limited (AIS), India's leading integrated glass company expanded its existing portfolio in the architectural glass segment with the introduction of a new shade under its range of hard-coat reflective glasses – AIS Opal

Features & Benefits:-

- AIS Opal is a solar control heat reflective glass, manufactured using cutting-edge CVD technology which makes it a long-lasting and durable glazing solution
- Its solar control characteristic reflects heat, hence preventing a large part of it from entering the building
- Value for money
- Available in 3.5 mm, 4 mm, 5 mm thickness

Vikram Khanna, COO – Consumer Glass, COO – Architectural Institutional Business, CMO, CIO, Asahi India Glass Limited said “The product was available in 5 shades –Cool Green, Pearl Grey, Golden Bronze, Royal Blue and Aqua Blue. AIS has now unveiled one more shade under this brand – Olive Green to give the customers one more beautiful option for creating sophisticated and contemporary exteriors.”

About Asahi India Glass Limited (AIS):

Asahi India Glass Ltd. (AIS) is India's leading integrated glass solutions company and a dominant player both in the car and building glass segment. It commands over 70% share in the Indian passenger car glass market. Established in 1986, AIS' footprint today spans the entire spectrum of the automotive and architectural glass value chains. It is a sand-to-solutions organization with products & services for institutional buyers as well as retail customers.
