USE GLASS TO CREATE ILLUSION OF SPACE

1 Create space: Use creative ideas to add a special touch to your living spaces by using glasses. You could go for a glass floor or skylight to add an illusion of space to your space.

2 Glass furniture: If you are little adventurous, you can replace your old furniture with glass furniture. Simple additions such as a contemporary glass centre table can change the look of your living room. Glass furniture could be a tad expensive but it adds a dramatic appeal to your space. It is also easy to maintain and can be repolished at home.

3 Jazz up the wall: No one likes plain boring walls. Something as simple as glass painting can be framed and put up on the walls, to add some drama to your space.

4 The photo effect: Add a personal touch to your home by displaying treasured photos in brilliant glass frames. Photos can be displayed in numerous ways – paint on glass, paste pictures on glass, ceramic print on glass, glass on glass pasting, collages and coasters.

5 Jazz up the wall: Changing the basic home décor like curtains can add a complete new dimension to your home. In fact you could even give the curtains a pass and go in for patch work designs in glass fabric that can be placed on windows and doors to create space illusion.
