A FLATTERING SEMBLANCE

A building's facade is the first thing that announces that the structure has something special to offer. A plethora of finishes today are all set to illustrate unexpected surprises.

ASAHI INDIA-GLASS LIMITED EDGE SERIES - ECOSENSE GLASS FACADES

One of India's leading integrated glass companies expanded its portfolio with the introduction of the Edge series under its Ecosense range of high performance glasses. Edge combines functionality and eco friendly features. It is a solar control glass with thermal insulation. Ideal for use in structural glazing it is available in three shades - clear (Natura), blue (Electra) and green (Chroma).
