

ecosense
The green standard in glass

EMPOWERING EFFICIENCY, DELIVERING EXCELLENCE

AIS – ENABLING A FUTURE TO SEE MORE

Asahi India Glass Ltd. (AIS) is India's leading integrated glass and window solutions company and a dominant player both in the automotive and architectural glass segments. It commands over 70% share in the Indian passenger car glass segment. Established in 1984, AIS' footprint today spans the entire spectrum of the automotive and architectural glass value chains.

Ecosense is a next-gen, high-performance glass from AIS which is developed specifically for Indian climatic conditions. This product is a perfect example of AIS' strength of being innovative in the product development and industry thought leader. We at AIS, believe in providing an ideal solution with the aim of achieving customer delight.

AIS caters to customers in domestic as well as international markets.

AIS PROVIDES CUSTOMIZED PRODUCTS WITH END-TO-END SOLUTIONS

Glasses for exteriors require a lot of consideration of different factors which impact glazing solutions. Hence, through 4G solutions, we enable our customer in selecting right optimum products as per their requirement. the 4G Solution, we provide:

Glass Products

Wide range of high-performance products that include features like, optical comfort, thermal comfort, safety, indoor environment quality, and aesthetics.

Glass Integration

Through 4G solution we provide a 360-degree guidance from right product to right process and thus selecting the right glazing solution. Hence, integrating the whole selecting process.

Glass Processing

We provide all kind of glass processing as per application requirement.

Glass Selection

Help customers throughout the glass selection process with the help of advanced in-house technical services which cover energy consumption, artificial and natural lighting, wind-load, acoustic, rendering to name a few glass integrations.

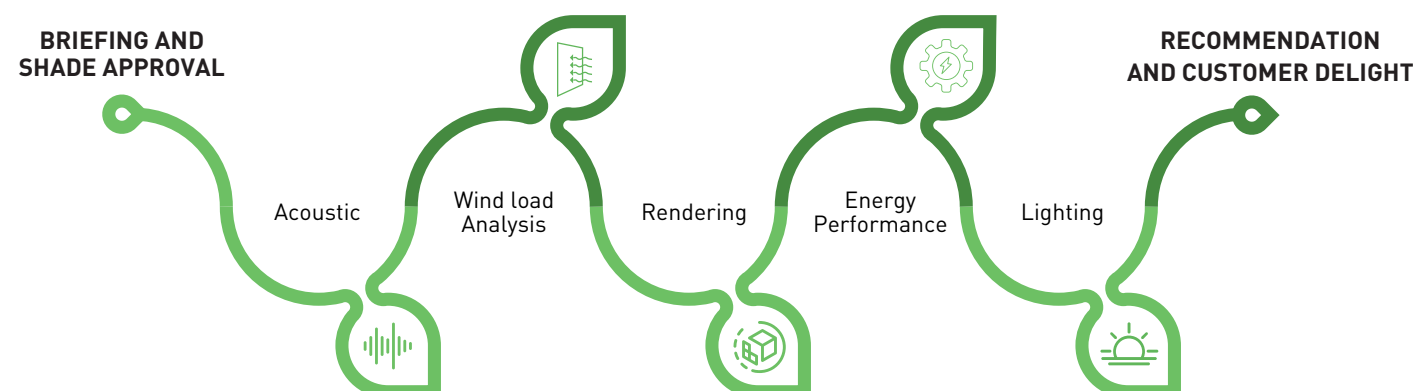

THE GREEN STANDARD IN GLASS

The AIS Ecosense range of high- performance, energy-efficient products, provide the right blend of energy-efficiency, visual comfort, thermal control, and aesthetic.

A natural choice for eco-friendly architecture, the AIS Ecosense range of glass products provide the perfect balance between the outdoors and indoors, aesthetics and economics, function and finesse.

Used for the various exterior façades forms either in windows or certain glazing or structural glazing. It is developed indigenously considering the Indian climate.

360-DEGREE GLASS SOLUTIONS FOR COMPLETE CUSTOMER DELIGHT

RANGE OF AIS ECOSENSE PRODUCTS

Shades available

- Neutral Series: Spring, Nimbus, Aura, Nectar, Dawn, Ivory, Snow, Solaris
- Blue Series: Oasis, Oceanic Blue Plus, Sky
- Gold
- Green: Fern, Zest, Eco

AIS Ecosense Enhance

It is a solar control glazing solution that lets you stay close to nature. It is ideal for tropical nations like India where cooling needs outweigh heating needs.

Benefits

- Significantly reduces direct solar radiation
- Enhances energy efficiency
- Increases daylight
- Reduces your electric bill

Shades available

- Clear Essence Plus

AIS Ecosense Essence

AIS Ecosense Essence is developed with a modern, low-e coating to help achieve energy efficiency, and it will also help with the insulation of the building. It can only be used in the IGU.

Benefits

- Provides enhanced thermal insulation
- Allows better visible light transmission
- Suitable for colder climate.

AIS Ecosense Exceed

The exceed range of glasses is a perfect balance of solar control and low emissivity properties, which combine energy efficiency and aesthetics. It can only be used in the IGU.

Benefits

- Spectrally selective glass
- Excellent for use with high WWR
- Ideal for the green building concept

Shades available

- Neutral Series: Clear Lite Plus, Clear Radiance, Clear Vision Plus, Clear Brook Plus, Clear Priva, Clear Comfort, Clear Platina
- Blue Series: Electric Blue, Blue Berry Plus, Tropic Blue
- Gold

AIS Ecosense Edge

The Edge series is a solar control glass with thermal insulation. It can be used in single-glazing applications.

Benefits

- Aids in increased energy savings
- Increases environmental benefits through solar and thermal insulation
- Appropriate for use in "green" homes
- High-performance glass that reduces direct and indirect heat

Shades available

- Clear Series: Natura, Natura Plus, Natura Advantage

OTHER OFFERINGS BY AIS

Usage

- Shopfronts
- Partitions
- Doors
- Shelves
- Furniture
- Windows

AIS Clear Float Glass

Gives a clean and modern look to the exterior façade.

Benefits

- Distortion-free
- Clear
- Sleek finish

Usage

- Bedrooms & Bathrooms
- Shops & Showrooms
- Hotel Lobbies
- Furniture
- Clinics & Hospitals

Shades available

- Clear
- Tinted: Bronze, Grey, Royal Blue, Aqua Blue, Cool Green

AIS Mirror

New-generation, environment-friendly copper- and leadfree mirrors that are available in clear as well as in bronze and grey-tinted shades. It is manufactured using Belgian technology from Glaverbel.

Benefits

- Distortion-free
- Clear
- Sleek finish

AIS Tinted Glass

Blocks the sun's heat, allowing the room to remain cool.

Benefits

- Absorbs 30% to 45% of solar heat
- Enhances the aesthetic appearance of buildings
- Protects against glare

Usage

- Partitions
- Doors
- Shelves
- Furniture
- Windows

Shades available

Dark Grey, Green, Bronze, Dark Blue, Royal Blue, Cool Green, Aqua Blue

AIS Opal

Economical range of solar control glass providing value for money.

Benefits

- Durable coating
- Solar Control Glass
- Available in thicknesses of 3.5 mm, 4 mm and 5 mm in various sizes

Usage

- Exterior façades
- Windows

Shades available

Royal Blue, Cool Green, Golden Bronze, White Gold, Pearl Grey, Aqua Blue

OTHER OFFERINGS BY AIS

Usage

- Partitions
- Doors
- Cabinet doors
- Tabletops
- Kitchens and Bathrooms
- Writing boards

Shades available

- Available in 26 exciting shades
- Thicknesses: 4 mm, 5 mm and 6 mm

AIS Décor

An exclusive range of back-painted glass for interior applications.

Benefits

- Splendid chromatic assortment
- Superior finish, high durability and Lowmaintenance
- Thermal and humidity-resistant

Benefits

- Provides Level 2 and Level 3 protection from burglar attacks
- Eliminates the need for grills or shutters, without compromising on safety
- In the unlikely event of breakage, the PVB interlayer acts as an extra layer of protection
- Effectively reduces sound for better acoustic performance

Usage

- Windows • Roof • Lights
- Canopies • Domes • Skylights
- Glass lifts

AIS Securityglas™

A specially toughened, laminated safety glass that provides greater impact-resistance and strength. It is manufactured with a specialised PVB interlayer between two sheets of glass, and this combination of layers provides a high level of intrusion resistance.

AIS Stronglas™

A very high-grade tempered glass that is significantly stronger than ordinary glass. It goes through a toughening process, which makes the glass invulnerable to tensile stresses.

Benefits

- Tough
- Durable
- Lowers the risk of impact-resistant breakage

Usage

- Tabletops
- Shelves
- Facades
- Shower
- Enclosures
- Partitions
- Canopies

AIS Securityplus

Reinforced by a layer of DuPont Sentry Glass™, AIS Securityplus is up to five times stronger than conventional laminated galss. The special interlayer increases the tolerance to greater loads while enabling a design of aesthetically pleasing and complex elements.

Benefits

- Its enhanced strength eliminates the need for grills
- Requires minimal structural support
- Retains clarity, even after years of use
- Superior noise reduction for better acoustics

Usage

- Windows • Roof lights
- Canopies • Domes
- Skylights • Glass lifts

OTHER OFFERINGS BY AIS

Benefits

- Works with an electric switch or a remote-control device
- Blocks UV rays that are harmful to the skin
- Works in temperatures ranging from 10 to 50 degrees
- Blocks up to 50% light in 'Off' mode.
- The interlayer behaves like a security film
- Its acoustic properties help dampen outside noise
- Lasts a minimum of 20,000 cycles.
- Low power consumption.
- A variety of colour tints are possible

Usage

- Windows • Skylights
- Walls and Partitions

AIS Swytchglas

The cutting-edge glass technology, which has the power to control transparency, making it the smartest glass around. With AIS Swytchglas, you can make transparent glass translucent, to block visibility, at the click of a button.

Usage

- Partitions
- Writing boards
- Doors for cabinets
- Bathroom windows
- Various interior decorative applications

Shades available

- Clear, Green, Blue and Bronze
(Available in a variety of patterns)

AIS Krystal

AIS Krystal is a frosted glass, which admits light and at the same time obscures the view. It offers quality excellence owing to its superior glass manufacturing techniques.

Benefits

- Ensures privacy
- Available in a wide range of colours
- Distinctive aesthetic appeal with matte finish

AIS Windows

Doors and windows are the soul of any building. At AIS, you have a multitude of choices within uPVC and aluminium profiles. Along with aesthetic value, there are other features like safety, security, noise cancelling and environment-friendly profiles that are being offered by AIS Windows. Therefore, we present a range of solutions that suit your taste and your class

Benefits

- Lowers energy bills
- Environment-friendly
- Energy-efficient
- Secure
- Customizable as per your requirement

AIS Pyrobel

Engineered with a special intumescent layer that helps withstand extreme levels of heat, largely restricts heat transfer and prevents easy passage of smoke and flames. In case of a fire, the interlayer expands and transforms itself into a rigid, opaque and heat-absorbing fire shield.
