

AIS Windows Launches Experience Centre in Bengaluru

New Delhi, February 17, 2023 – AIS Windows, a strategic business unit of AIS, has today unveiled its latest technology driven experience centre in Bengaluru, Karnataka. Asahi India Glass Ltd (AIS) is India’s leading integrated glass solutions company and a dominant player, both in automotive and value-added architectural glass segment

This is AIS Windows’ 2nd Experience Centre, with the other being in Defence Colony, New Delhi.

The Bengaluru Experience Centre is located at **HMG Ambassador, Ground floor ,137 Residency Road , Bangalore – 560025.**

Spread across 3700 sq. ft, the experience centre will allow homeowners, commercial real estate developers, designers and architects to get themselves acquainted with the full range of AIS Windows’ customized solutions, including glass and fenestration products. The experience centre not just offers a touch and feel for the product, but also a phygital experience of products and applications through the various tech enabled consoles in the centre. The staff on hand is fully equipped and trained to handle all

queries related to products and solutions as well as assist the customers with the phygital experience.

The experience centre was inaugurated by the Chief Guest, Mr. Mahesh Khaitan, Director at Salarpuria Sattva Group and Mr. Vikram Khanna, COO Consumer Glass at Asahi India Glass Ltd.

Speaking at the launch, Mr. Mahesh Khaitan, Director at Salarpuria Sattva Group said “Let me congratulate AIS team for wonderful experience centre. I felt so happy to see wide range of offerings by AIS for consumers, it will help to offer customers better quality & service. AIS has launched lot of new products in uPVC and aluminium range of Windows and Doors and different glass solutions with new methodology and design concepts. We will definitely use AIS offering to add value to our customers.

Speaking at the launch, Mr. Vikram Khanna, COO Consumer Glass at Asahi India Glass Ltd. said “The AIS Experience Center is a unique one of its kind showroom where the customer will be able to experience different door and window typologies in both uPVC and Aluminum range.as also experience security, acoustic, energy efficiency and privacy solutions in glass. Each element of this experience center has been thought of and designed to provide the visitor with a sublime experience. For us at AIS, it was indeed a huge project, and a lot of thinking, planning, hard work has gone into it giving it its final shape. We take pride in presenting to you the Best in class, state-of-the-art glass and windows experience center.

In the words of Mr. Naveen Karki, Business Head, AIS Windows, “Windows and doors play an important role in design aesthetics and energy performance of buildings, be it commercial, institutional or residential. They provide physical and visual connection between the inside and outside and enhance the overall appeal of the building. Rising demand for well-designed windows has led to AIS Windows innovations in the quality and texture of the windows. Beyond aesthetics, windows are expected to perform other functions such optimizing day-lighting, insulation, energy conservation, noise reduction and pollution control.
